

A close-up photograph of a child's hands gently holding a purple, fluffy plush toy. The toy has a simple, embroidered face with two small black eyes and a curved line for a mouth. The background is softly blurred, showing more of the child's hands and the plush toy.

ZackAI

Screen-Free Playtime Companion

The AI-powered plush companion that combines the warmth of a stuffed animal with the intelligence of a personal tutor.

The Screen-Time Paradox

Meet Soft Intelligence

Target Audience

The Intentional Parent

Age 30-42 | Upper-middle income (€55k-120k) | Urban France / Expat Hubs

Psychographics

Buying Triggers

- ✓ Safety certifications (EN71/CE/GDPR) front and center.
- ✓ Seeing natural, hands-only child interaction.
- ✓ No subscription required.

Anatomy of a Best Friend

Hypoallergenic Fur

Soft, fluffy, brushed cotton safe for sensitive skin.

Cuddly Form

Round, ball-shaped with cat-like ears; safe to take to bed.

Hardware

Hidden USB-C charging dock, CE/EN71 certified construction.

Animated LED Personality

Expressive blue eyes that sync with voice, emotion, and mood without a screen.

Multilingual Brain

40+ conversational languages with real-time adaptation.

Persistent Memory

Remembers favorite topics and stories, deepening the friendship over time. Multi-layer content filtering for ages 3-12.

Takeaway: No competitor offers 40+ conversational languages AND emotional intelligence without a screen or a subscription.

No Subscription Ever.

A flat €99 lifetime device (50% off €199 launch price). We don't nickel-and-dime parents—this is a profound brand trust signal for subscription-fatigued families.

Total Cost of Ownership (TCO)

From Kickstarter to Nurseries

Phase 1: Kickstarter Momentum

Rewards: Early Bird (Launch price), Standard Backer (Full color lineup), Family Bundle (Two companions for gifting).

Phase 2: Dominating the Market Gap

Targeting the severely underserved French market first, capitalizing on strong cultural alignment with education and strict screen-time boundaries.

Phase 3: Localized Content Rollout

Expanding the 40+ language ecosystem for expat and bilingual households.

Phase 4: Community-Backed Expansion

Delivering free firmware/content updates for life and developing new features driven by founding family feedback.

Designed for Warmth

Voice & Tone

Archetype: The Playful Guardian

Tone: Warm, playful, reassuring, parent-trustworthy.
Like a trusted pediatrician who is also a parent.

Typography

Figtree (Friendly headers)

Inter (Legible body copy)

The Ultimate Design Constraint:

Technology that feels like a hug. No screens visible, ever. Focus on natural light, tactile plush textures, and hands-only child interactions.

Join the first wave of screen-free families.

Back ZackAI on Kickstarter

Childhood deserves a companion, not a screen.
