

The Smartest Thing in the Room is Also the Softest

Screen-Free Playtime Companion

The Modern Playtime Compromise is Over

Passive Audio

One-directional listening.
Collects dust after a week.

Active, Screen-Free Companionship

Addictive Screens

Overstimulating pixels.
Guilt-inducing and hard
to turn off.

Parents want less screen time and more meaningful play.
Your child deserves a responsive companion that listens, teaches, and comforts.

Built for Wonder. Designed for Trust.

1 Hypoallergenic Brushed Fur

Soft, premium, and rigorously tested for daily cuddles.

3 Sealed Rounded Components

Absolutely no sharp edges. EN71, ASTM F963, and CE certified for physical safety.

2 Animated LED Emotion Eyes

Expresses joy, curiosity, and sleepiness without a single pixel of screen.

4 Hidden USB-C Port

Invisible technology that keeps the focus entirely on the plush companion.

Intelligence That Feels Like a Hug

40+ Languages

From French to Farsi, native-quality conversational pronunciation. Your child's first multilingual friend doesn't need a passport.

Feels like a friend's personality that first conversation.

Animated LED Personality

Real-time physical expression synced with voice and mood.

A Companion That Remembers

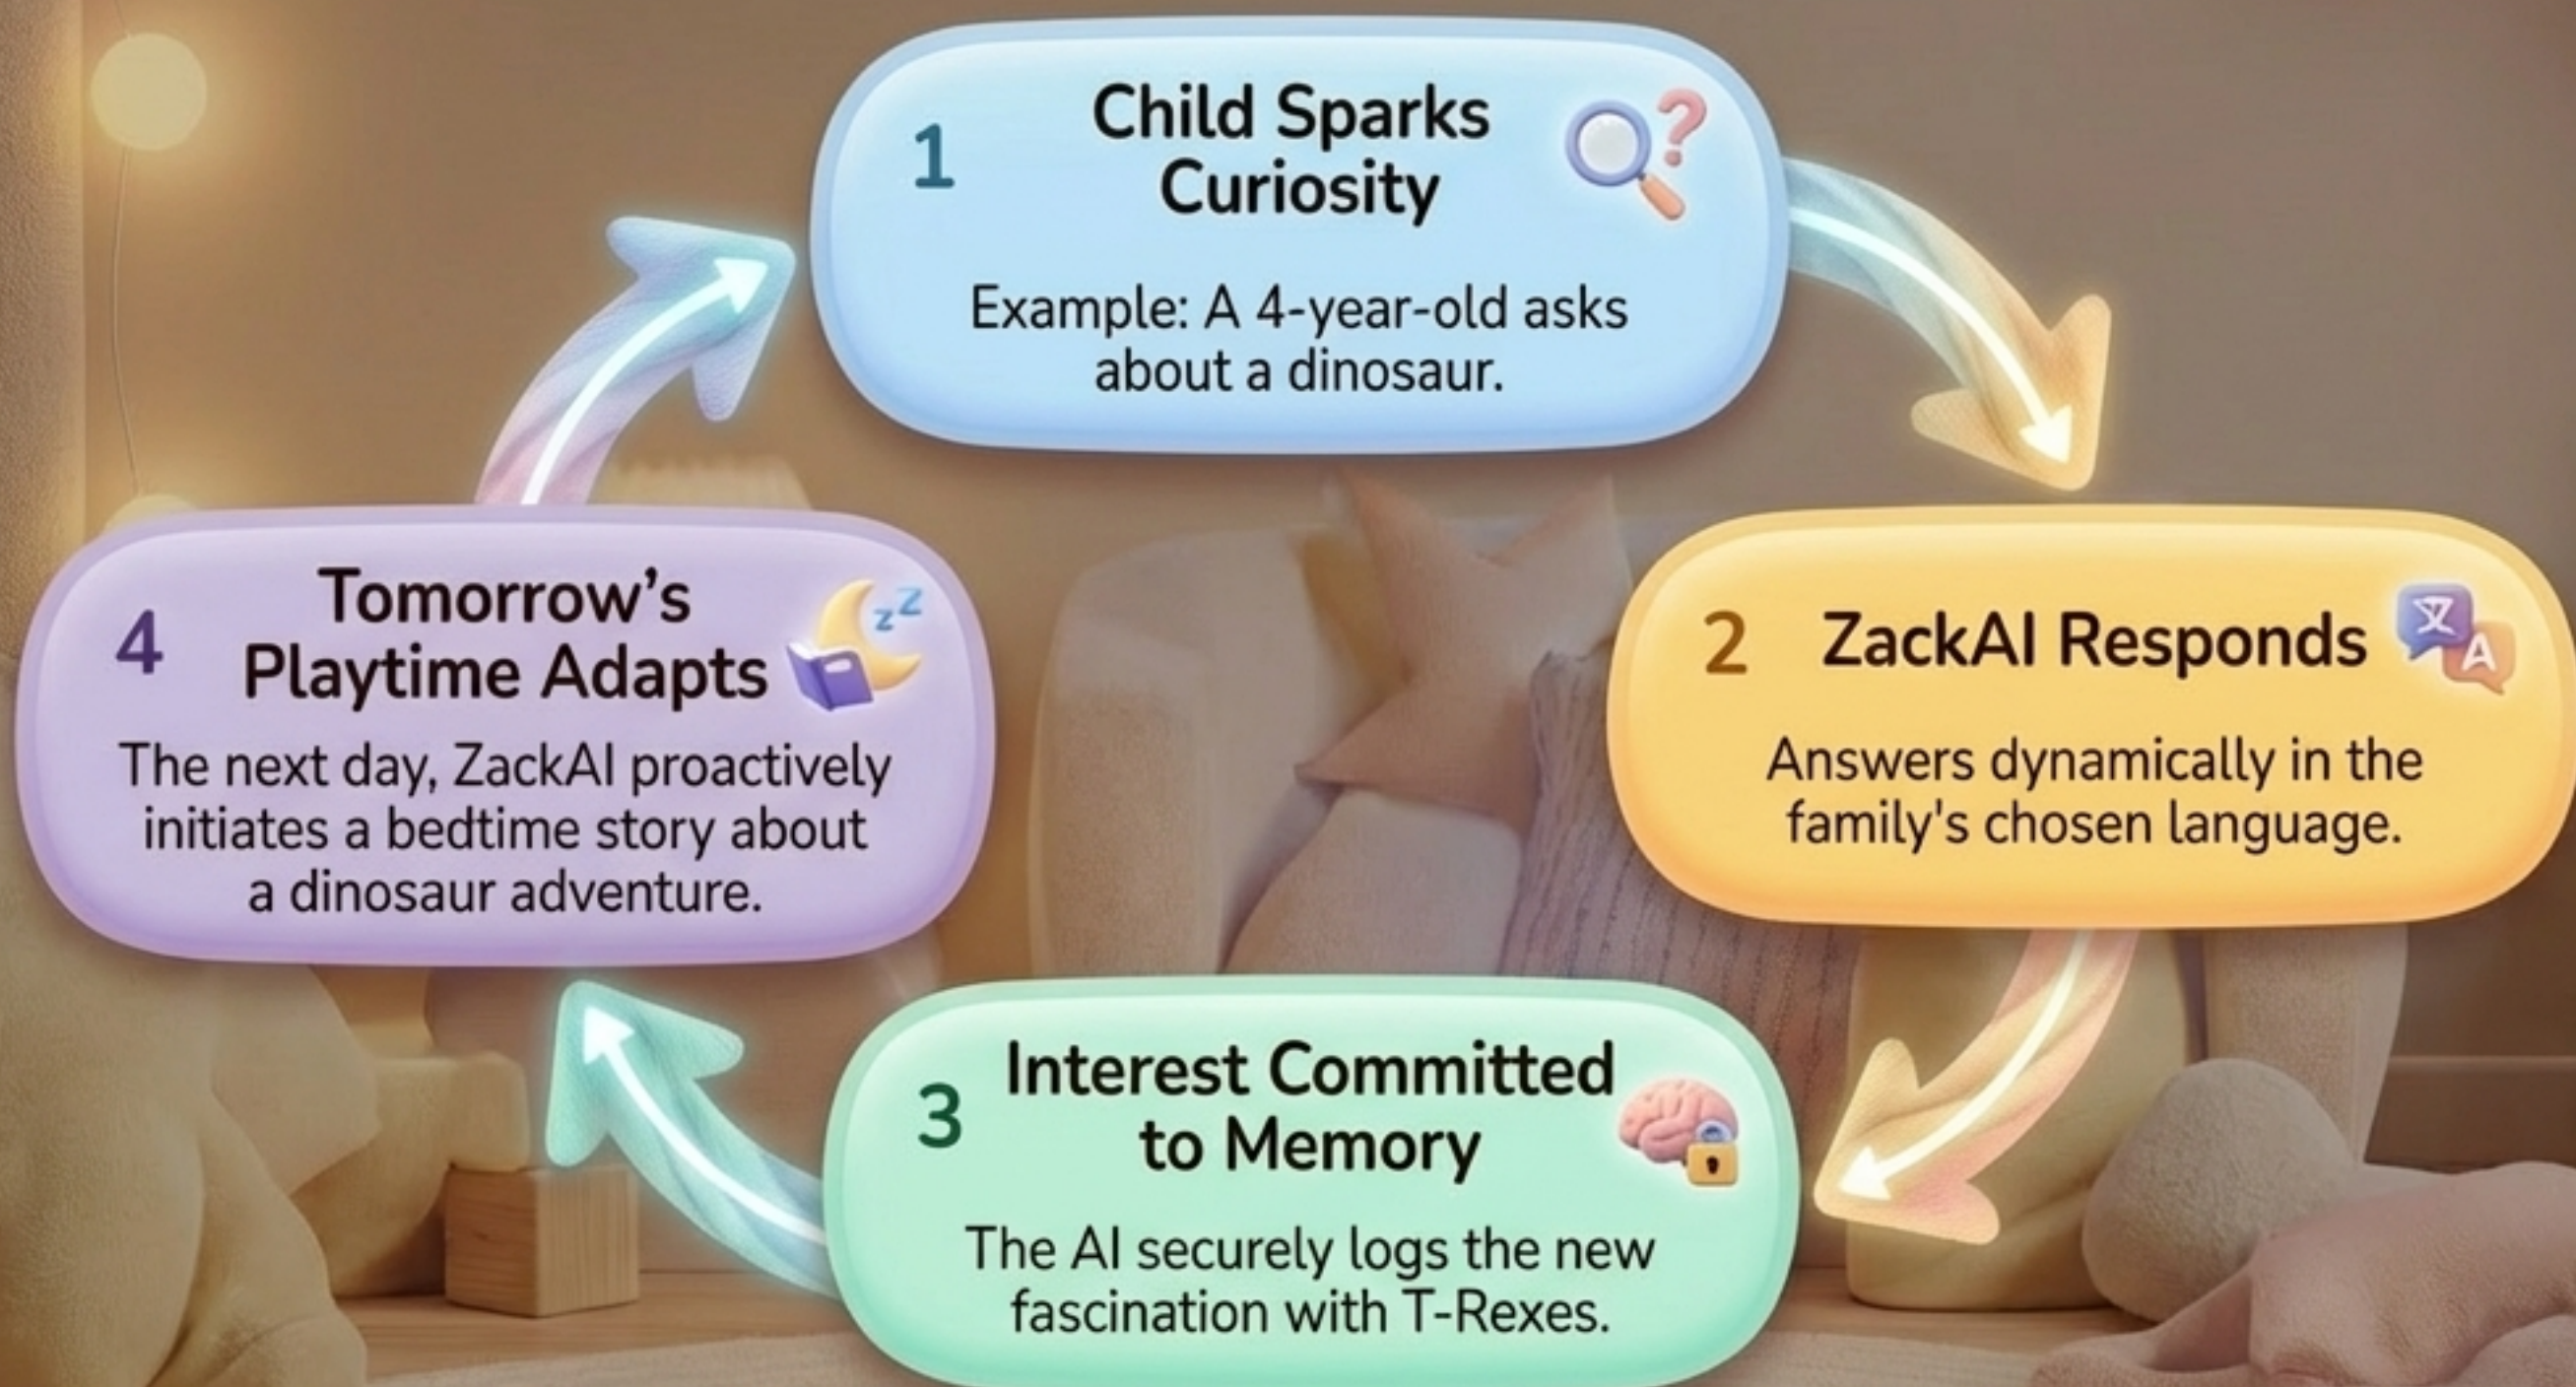

Builds a persistent, private memory of your child's interests and favorite stories.

Privacy You Can Trust

European-built, zero third-party data sharing, and parent-controlled. The only one listening is the fluffy friend.

The Friendship That Deepens Every Day

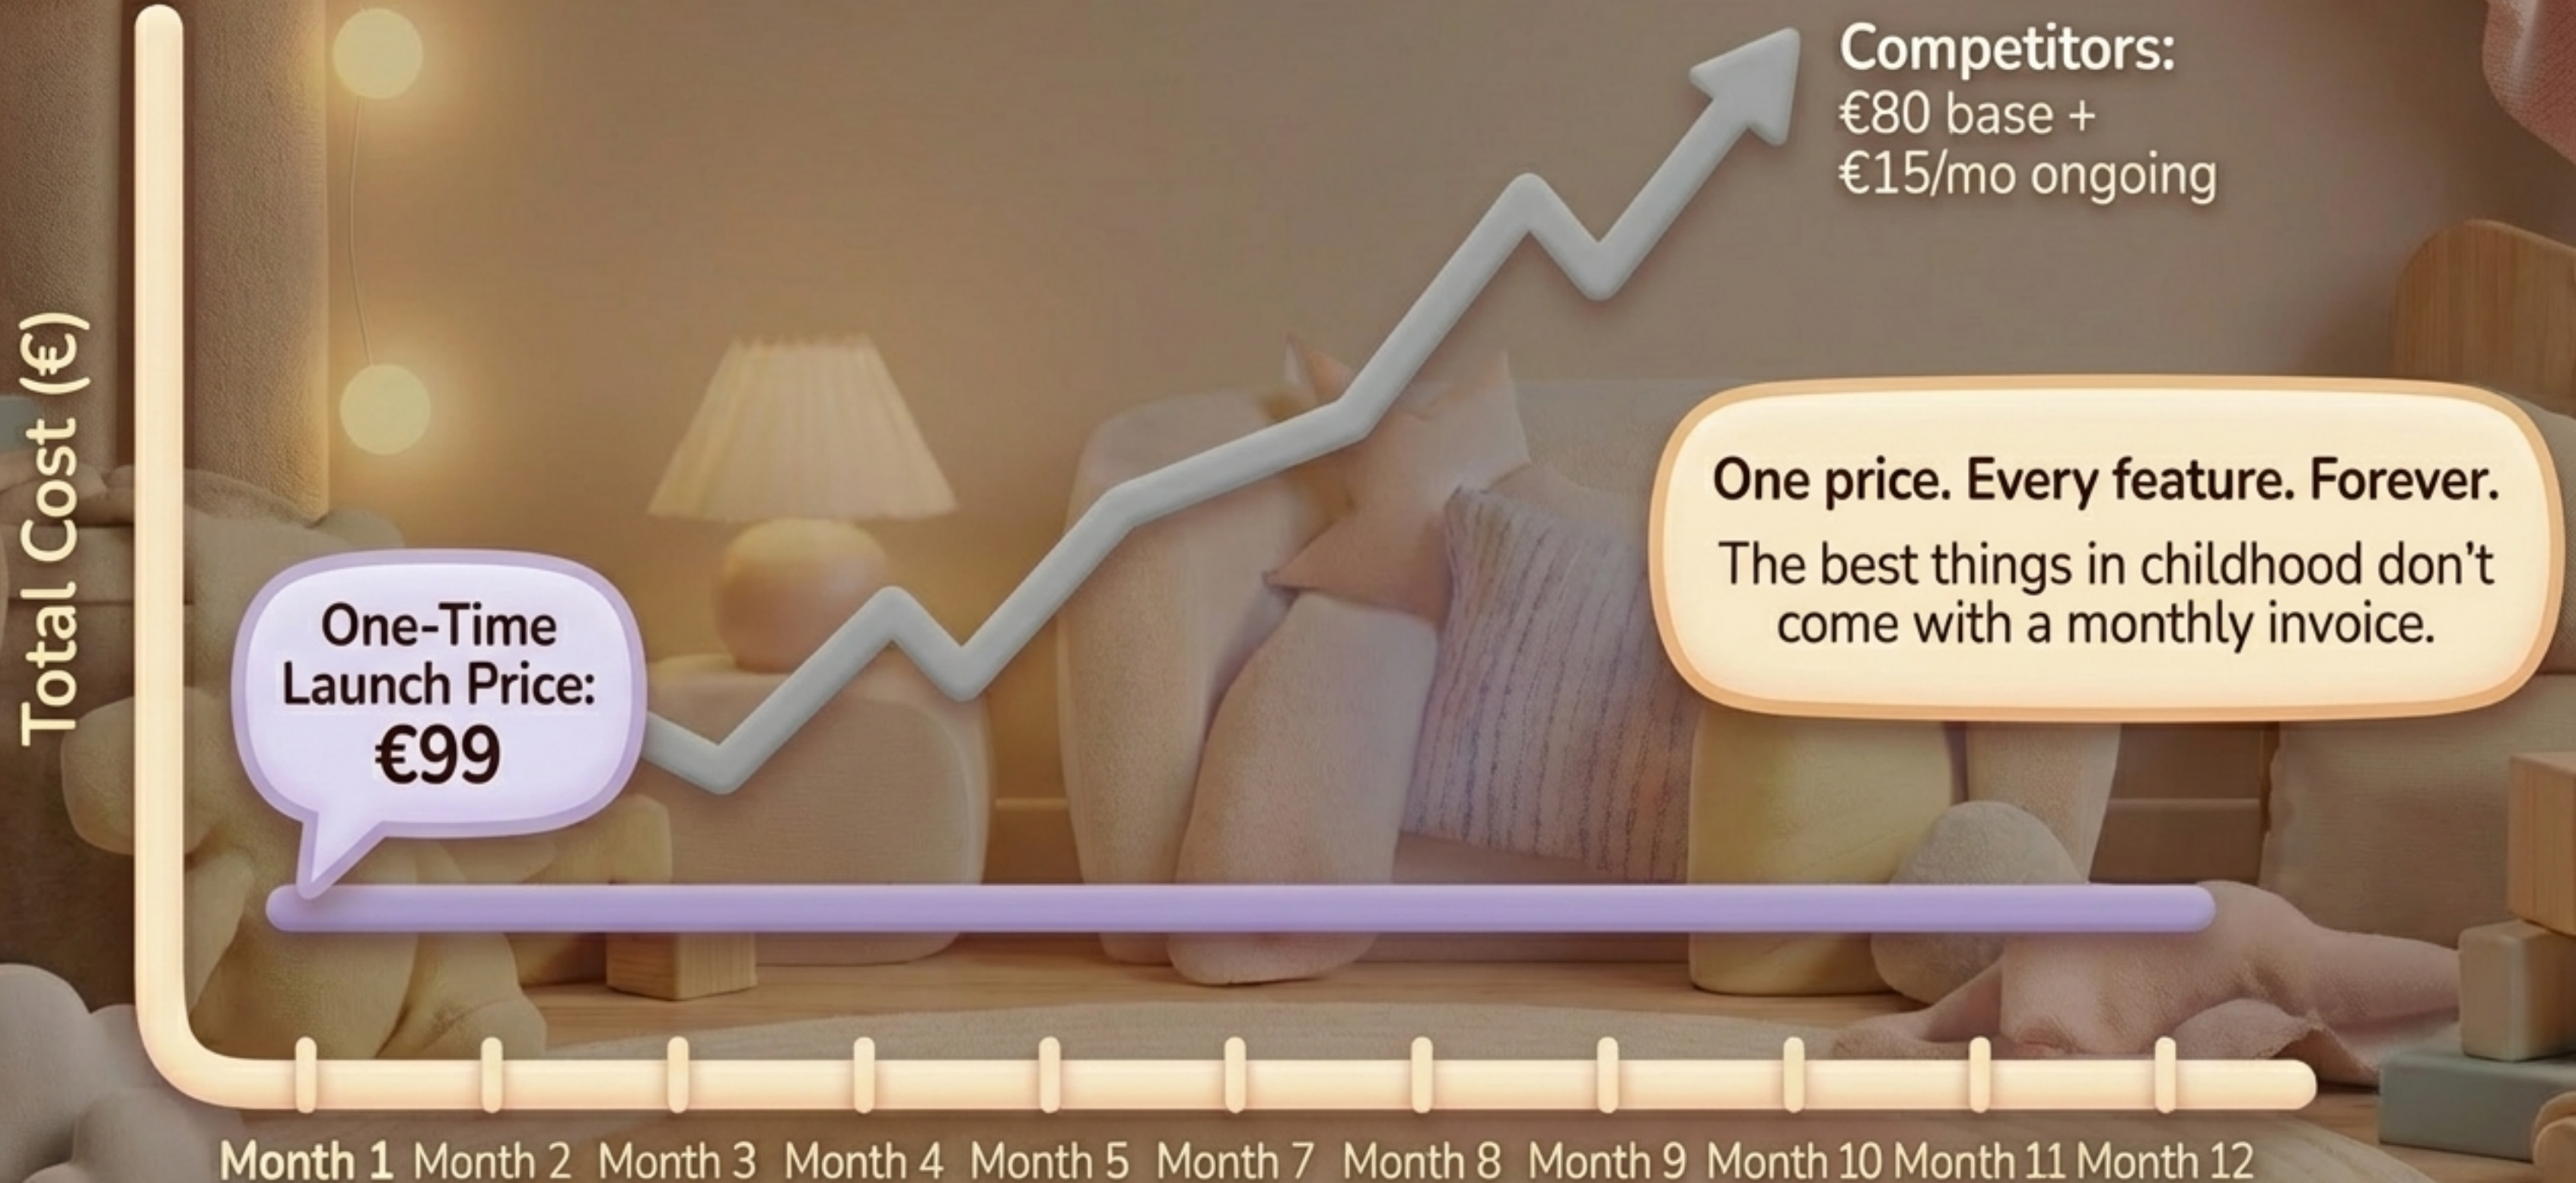

Not a flashcard drill. Not a pre-recorded track.
A true conversational partner that evolves alongside your child's imagination.

The Only Uncompromising Choice

More Than Technology. A Trusted Member of the Family.

“I just want her to use her imagination instead of staring at a screen all day.”

ZackAI is the only companion that merges the tactile, huggable comfort of a traditional plush toy with the endless patience of a multilingual tutor. It gives children the agency to explore their world, and parents the profound relief of knowing they are completely safe.
